Roadworks from Oakley Road, Bromham through Stevington
30.11.26 – 11.12.26 between the hours of 20:00 and 06:00

Roadworks are planned to resurface Oakley Road, Bromham from No.34 Oakley Road to Park Road, Stevington, Church Lane, Oakley and Oakley Road, Bromham, to replace the surface as indicated on the attached location plan.

This will entail a **road closure between 30/11/2026 and 11/12/2026 during weekdays between the hours of 20:00 and 06:00.**

Signs will be put up at the ends of the site which will provide the most up to date information if the programme changes. A diversion route via Stevington and Oakley will be in place during the hours of the road closure.

Please note the following comments from Bedford Borough Council:

- Access for emergency vehicles will be maintained at all times.
- Please be respectful of the workforce and, if you are permitted to drive through the road closure please keep speeds down to a minimum to protect the safety of the workforce.
- All site vehicles are fitted with reversing beepers and flashing lights so please be careful when approaching the site.
- We apologise for the disruption caused by this essential work but be assured they have been programmed in co-ordination with our Streetworks team to ensure disruption is kept to the minimum. Where works are carried out at night, we aim where possible, to carry out operations which cause the most noise during the earliest hours in the shift to again ensure disruption is kept to the minimum.
